

My first day at school

My first day at school was nice because I saw all my friends. We didn't have classes and we went to the church. I got home earlier than usual. That was nice.

I don't like school very much because I must go asleep early and must wake up early. I must study a lot to get an A so I can't watch TV or play computer games all the time.

I don't like to write my homework so I can't believe that I'm writing this one.
